Dear Ponce Inlet Resident:

Every year, flooding causes more property damage in the United States than any other type of natural disaster. The National Flood Insurance Program (NFIP), a part of the Federal Emergency Management Agency (FEMA) has asked the Town to provide information to keep residents current with flood insurance information. It is important to have protection from floods which can occur from hurricanes, tropical storms, heavy rains and other weather conditions and standard homeowner's insurance doesn't cover flooding from rising water. The Town participates in the National Flood Insurance Program (NFIP) and all property owners can purchase flood insurance for structures and contents within the Town.

Flooding can happen anywhere, but certain areas are more prone to serious flooding. To obtain more information about flood insurance to protect your property and its contents, contact your insurance professional. Your insurance professional will explain your flood insurance needs and to check if you are fully insured. To determine the flood zone for your property, please contact the Planning & Development Department at 386-236-2185. Additional information is also available at www.floodsmart.gov.

Please take the time to make sure you protect your financial interest for yourself and your family.

Sincerely,

Gary L. Smith
Mayor
