Hurricane Matthew- Debris Pickup November 8th, 2016

COMPLETION OF 2nd PHASE OF DISASTER DEBRIS REMOVAL IN PONCE INLET

We are pleased to announce that the 2nd pass of vegetative debris removal has been completed.

Please note that we will be starting on Construction & Demolition (C&D) removal starting on Wednesday, November the 9th. Any remaining vegetative debris from here forward will need to be bagged or canned and will be removed by Waste Management on their normally scheduled pickup days.

Please be advised that debris removal crews WILL NOT enter onto private property to collect or remove debris. All C&D items should be placed in the Right-of-way for pickup. The Right-of-way is the area of residential property that extends from the street to the sidewalk, ditch, utility pole or easement. DO NOT place debris near water meter vaults, fire hydrants, mail boxes, any above-ground utility and do not block drainage ditches.

Residents should **separate** vegetative debris from construction and demolition debris (C&D).

- Vegetative Debris: Trees, limbs, brush, leaves (unbagged)
- Other Debris (C&D): Structural materials, demolition debris, metal, wood, concrete, shingles carpeting and drywall, etc.

Hazardous materials, such as paint, solvents, batteries and pesticides will not be collected. In addition, no electronic devices or appliances will be accepted during hurricane debris removal.

Bagged and canned lawn debris will continue to be picked up by Waste Management, and **any loose vegetation needs to be canned or bagged** for them to pick up.

Residents may call Public Works at 322-6729 for specific questions.
