

MEMORANDUM

TOWN OF PONCE INLET, TOWN MANAGER DEPARTMENT

The Town of Ponce Inlet staff shall be professional, caring and fair in delivering community excellence while ensuring Ponce Inlet citizens obtain the greatest value for their tax dollar.

To: Accession Committee
From: Amy Zengotita, Parks/Rec & Museum Educator
Date: December 2, 2015
Subject: Re-evaluation of Accessioned Items into the Education Collection

MEETING DATE: January 20, 2015

At the March 2015 meeting, the Committee accepted the definitions of the Permanent Collection and the Education Collection to help determine whether items being accessioned are artifacts or props. The committee requested to revisit the definitions in six months to determine if any changes were needed. The following definitions were approved by the Committee.

Permanent Collection: Artifacts are to be accessioned into the permanent collection. Artifacts are those items that directly came from or were used by those living or visiting the Ponce Park/Ponce Inlet area and must relate to the adopted themes and years/time period.

Education Collection: Prop items are to be accessioned into the education collection. Items accessioned into the education collection should have an "EDU" in front of the accession number. Prop items include both antique examples of items that could have been used in the area and replicas of items used in the area and must relate to the adopted themes and years/time period.

As requested at the March 2015 meeting, Staff has re-evaluated the items accessioned into the collection to determine if the items should be in the Education Collection rather than the Permanent Collection. All items are logged on the same spreadsheet, the Permanent Collection items are categorized with only a number and the Education Collection items have an "EDU" in front of the number. Staff requests the committee to review staff's recommendation of the re-evaluation of the accessioned items (**Attachment 1**).
