

COMMUNITY SURVEY

We want your input!

The Town of Ponce Inlet, in collaboration with the East Central Florida Regional Planning Council, invites you to complete our Resilient Ponce Inlet survey. Your feedback will help the Town develop strategies to plan for the impacts of current and future flooding in the community. We need YOU to help us identify which measures you would like to see implemented to minimize these impacts. To begin, scan the QR code below with your mobile device, or visit <http://metroquestsurvey.com/h73x>.

For more information, contact Adam Mendenhall at amendenhall@ponce-inlet.org or Charles Abbatantuono at CAbbatantuono@ecfrc.org
